An aerial photograph of the Meteora rock formations in Greece. The scene is dominated by massive, dark, craggy rock pillars rising from a lush green valley. In the foreground, a dense forest of trees covers the lower slopes. To the right, a large, multi-story stone monastery is built on a high, narrow rock outcrop. The sky is filled with dramatic, dark clouds, and bright sunbeams (crepuscular rays) stream down from a break in the clouds in the upper right quadrant, illuminating the landscape. The overall color palette is a mix of earthy tones and vibrant greens, with the sunbeams adding a golden glow.

METEORA

TOUR (14-16 HOURS)

ME TEO RA

Visiting Meteora is one of the must-have experiences when travelling to Greece. Meteora have been listed by UNESCO among the world heritage sights! Meteora is a complex of unique, gigantic rock pillars rising outside the city of Kalampaka. The area consists of dozens of monasteries, residing on top of the rocks making Meteora the second most populated monastic area in Greece. The breathtaking views and unique atmosphere will take you back to the byzantine times and bring you closer to the essence of existence where you literally feel you can touch heaven. The tour includes six monasteries.
